## **PROFESSIONAL EXPERIENCE**

### **BMC Compuware, Detroit, MI**

**2020 – Present**

- Created the groundwork for automatically documenting our current and future APIs with the OpenAPI Swagger Spec.
- Collaborated with team members to accomplish a hybrid upgrade of Java 8 to Java 11.
- Lead the team in supporting a React application provided to our team without in-depth documentation.
- Conducted research to assist with migrating our primary web application to Angular 11.
- Communicated with customers regularly to resolve common issues with configuring security and bugfixes.
- Onboarded new employees to get their development environments configured as well as acquaint them with our build process and source code management.
- Maintained an internal Jira plugin to send comments easily to Salesforce when working with customer issues.
- Commonly assisted colleagues in the setup and troubleshooting of Test Café automated tests.

### **AMERICAN ACADEMY OF PEDIATRICS, Itasca, IL**

**Summer 2018**

- Laid a foundation to allow the member database to be GDPR compliant.
- Refactored a 10,000-line SQL stored procedure to match the current standards for SQL scripts.
- Worked on the front and back-end portion of the AAP's Script Tracker web application to better handle the review of SQL scripts that required deployment.
